# Contents of Part I

Foreword	vii
Preface	ix
Contributors	xi

## SECTION 1 Basic mechanisms

<b>1. Molecular basis of acquired epileptogenesis</b> <i>K. Lukasiuk and A. Pitkänen (Warsaw, Poland and Kuopio, Finland)</i>	<b>3</b>
<b>2. Cellular bases of focal and generalized epilepsies</b> <i>P.A. Schwartzkroin (Davis, CA, USA)</i>	<b>13</b>
<b>3. Epilepsy as a dynamic disease of neuronal networks</b> <i>F.H. Lopes Da Silva, J.A. Gorter, and W.J. Wadman (Amsterdam, The Netherlands)</i>	<b>35</b>
<b>4. Animal models</b> <i>A. Coppola and S.L. Moshé (Bronx, NY, USA and Naples, Italy)</i>	<b>63</b>
<b>5. Classification of epilepsies and seizures: historical perspective and future directions</b> <i>A.T. Berg and J.H. Cross (Chicago, IL, USA and London, UK)</i>	<b>99</b>
<b>6. The epidemiology of the epilepsies</b> <i>A. Neligan, W.A. Hauser, and J.W. Sander (London, UK, New York, NY, USA, and Heemstede, The Netherlands)</i>	<b>113</b>
<b>7. Maturation of the human brain and epilepsy</b> <i>G.L. Holmes, M.D.M. Milh, and O. Dulac (Lebanon, NH, USA, Marseilles, France, and Paris, France)</i>	<b>135</b>
<b>8. Genetics of idiopathic epilepsies</b> <i>O.K. Steinlein (Munich, Germany)</i>	<b>145</b>
<b>9. The genetics of focal epilepsies</b> <i>J.J. Poza (San Sebastián, Spain)</i>	<b>153</b>
<b>10. Inflammation and epilepsy</b> <i>A. Vezzani, S. Balosso and T. Ravizza (Milan, Italy)</i>	<b>163</b>

## SECTION 2 Diagnosis

<b>11. Age-related epileptic encephalopathies</b> <i>R. Guerrini and J.M. Pellock (Florence, Italy and Richmond, VA, USA)</i>	<b>179</b>
--	------------

<b>12. Epileptic syndromes with focal seizures of childhood and adolescence</b> <i>T. Loddenkemper, E. Wyllie, and E. Hirsch (Cleveland, OH, USA, Boston, MA, USA, and Strasburg, France)</i>	<b>195</b>
<b>13. Idiopathic generalized epilepsies</b> <i>A. Kao and P.M. Rao (Washington, DC, USA)</i>	<b>209</b>
<b>14. Temporal lobe epilepsy</b> <i>M. Thom and E.H. Bertram (London, UK and Charlottesville, VA, USA)</i>	<b>225</b>
<b>15. Extratemporal epilepsies</b> <i>S. Bauer and H.M. Hamer (Marburg, Germany)</i>	<b>241</b>
<b>16. Reflex epilepsies</b> <i>P. Wolf and M. Koepp (Dianalund, Denmark and London, UK)</i>	<b>257</b>
<b>17. Psychogenic nonepileptic seizures</b> <i>P. Widdess-Walsh, B. Mostacci, P. Tinuper, and O. Devinsky (Livingston, NJ, New York, NY, USA, and Bologna, Italy)</i>	<b>277</b>
<b>18. Syncope</b> <i>B.A. Engelsen (Bergen, Norway)</i>	<b>297</b>
<b>19. Sleep and epilepsy</b> <i>P. Halász (Budapest, Hungary)</i>	<b>305</b>
<b>20. Electroencephalography and video-electroencephalography</b> <i>A. Gil-Nagel and B. Abou-Khalil (Madrid, Spain and Nashville, TN, USA)</i>	<b>323</b>
<b>21. Magnetoencephalography</b> <i>H. Stefan, N. Nakasato, and A.C. Papanicolaou (Erlangen, Germany, Sendai, Japan, and Memphis, TN, USA)</i>	<b>347</b>
<b>22. Structural brain imaging</b> <i>R. Kälviäinen and A. Dörfler (Kuopio, Finland and Erlangen, Germany)</i>	<b>359</b>
<b>23. Functional magnetic resonance imaging: focus localization</b> <i>G.D. Jackson, R. Badawy, and J. Gotman (Heidelberg and Melbourne, Victoria, Australia, and Montreal, Quebec, Canada)</i>	<b>369</b>
<b>24. Functional magnetic resonance imaging: functional mapping</b> <i>W.D. Gaillard and M.M. Berl (Washington, DC and Bethesda, MD, USA)</i>	<b>387</b>
<b>25. Magnetic resonance spectroscopy in epilepsy</b> <i>T. Hammen and R. Kuzniecky (Erlangen, Germany and New York, NY, USA)</i>	<b>399</b>
<b>26. Epilepsy diagnosis: positron emission tomography</b> <i>A. Kumar, F. Semah, H.T. Chugani, and W.H. Theodore (Detroit, MI, USA, Lille, France, and Bethesda, MD, USA)</i>	<b>409</b>

<b>27. Peri-ictal single-photon emission computed tomography: principles and applications in epilepsy evaluation</b>	
<i>E.L. So and T.J. O'Brien (Rochester, MN, USA and Melbourne, Victoria, Australia)</i>	<b>425</b>
<b>28. Clinical neuropsychology in epilepsy: theoretical and practical issues</b>	
<i>C. Helmstaedter and J.-A. Witt (Bonn, Germany)</i>	<b>437</b>
<b>29. Neuropsychiatric complications of epilepsy</b>	
<i>A.M. Kanner and D.C. Hesdorffer (Chicago, IL and New York, NY, USA)</i>	<b>461</b>
Index	<b>11</b>

## Contents of Part II

Foreword	vii
Preface	ix
Contributors	xi

### SECTION 3 Etiologies of epilepsy

<b>30. Metabolic and degenerative disorders</b> <i>T. Granata (Milan, Italy)</i>	<b>485</b>
<b>31. Neurocutaneous syndromes</b> <i>G. Kurlermann (Münster, Germany)</i>	<b>513</b>
<b>32. Cortical malformations</b> <i>R. Spreafico and L. Tassi (Milan, Italy)</i>	<b>535</b>
<b>33. Epilepsy-associated brain tumors</b> <i>I. Blümcke (Erlangen, Germany)</i>	<b>559</b>
<b>34. Seizures after stroke</b> <i>A. Guekht and N.M. Bornstein (Moscow, Russia, and Tel Aviv, Israel)</i>	<b>569</b>
<b>35. Posttraumatic epilepsy</b> <i>A. Martins Da Silva and L.J. Willmore (Porto, Portugal, and St Louis, MO, USA)</i>	<b>585</b>
<b>36. Infection and inflammation</b> <i>H.H. Garcia and O.H. Del Brutto (Lima, Perú, and Guayaquil, Ecuador)</i>	<b>601</b>
<b>37. Hippocampal sclerosis</b> <i>Ç. Özkara and E. Aronica (Istanbul, Turkey and Amsterdam, The Netherlands)</i>	<b>621</b>

### SECTION 4 Treatment

<b>38. Natural course of epilepsies</b> <i>L. Forsgren and M. Sillanpää (Umeå, Sweden and Turku, Finland)</i>	<b>643</b>
<b>39. Mechanisms of action of antiseizure drugs</b> <i>R.J. Porter, A. Dhir, R.L. MacDonald, and M.A. Rogawski (Bethesda, Davis and Nashville, MD, USA)</i>	<b>663</b>
<b>40. Principles of drug treatment in adults</b> <i>T. Tomson and B.J. Steinhoff (Stockholm, Sweden and Kehl-Kork, Germany)</i>	<b>683</b>
<b>41. Principles of drug treatment in children</b> <i>M.A. Mikati, M. Nabulsi Khalil and S.U. Steele (Durham, USA and Beirut, Lebanon)</i>	<b>699</b>

<b>42. Antiepileptic drugs: advantages and disadvantages</b>	
<i>B. Abou-Khalil and D. Schmidt (Nashville, USA and Berlin, Germany)</i>	723
<b>43. Pharmacoresistance</b>	
<i>H. Potschka and M.J. Brodie (Munich, Germany and Glasgow, UK)</i>	741
<b>44. Gender issues</b>	
<i>P. Crawford and S. Duncan (York and Edinburgh, UK)</i>	759
<b>45. Ketogenic diet</b>	
<i>R.H. Caraballo and E. Vining (Buenos Aires, Argentina and Baltimore, USA)</i>	783
<b>46. Status epilepticus in children</b>	
<i>K. Holland and S. Shinnar (Cincinnati and Bronx, USA)</i>	795
<b>47. Status epilepticus in adults</b>	
<i>F. Rosenow and S. Knake (Marburg, Germany)</i>	813
<b>48. Who is a surgical candidate?</b>	
<i>J. Engel and S. Wiebe (Los Angeles, USA and Calgary, Canada)</i>	821
<b>49. Preoperative evaluation in children for epilepsy surgery</b>	
<i>M. Duchowny and J. H. Cross (Miami, USA and London, UK)</i>	829
<b>50. Presurgical evaluation in adults: noninvasive</b>	
<i>C. Baumgartner, and S. Pirker (Vienna, Austria)</i>	841
<b>51. Invasive evaluation</b>	
<i>P. Kahane and S.S. Spencer (deceased) (Lyon, France and formerly New Haven, USA)</i>	867
<b>52. Epilepsy neurosurgery in children</b>	
<i>J.S. Hauptman and G.W. Mathern (Los Angeles, CA, USA)</i>	881
<b>53. Surgery in adults: temporal resections</b>	
<i>H. Clusmann and J. Schramm (Bonn, Germany)</i>	897
<b>54. Lateral extratemporal resections in adults</b>	
<i>D. Van Roost (Ghent, Belgium)</i>	915
<b>55. Surgical management of medial extratemporal epilepsy</b>	
<i>K.A. Zaghloul and J. Schramm (Bethesda, MD, USA and Bonn, Germany)</i>	919
<b>56. Epilepsy treatment in developing countries: drug treatment</b>	
<i>C. Acevedo and K. Acevedo (Santiago, Chile)</i>	925
<b>57. Epilepsy surgery in developing countries</b>	
<i>M.G. Campos (Santiago, Chile)</i>	943
<b>58. Neurostimulation for epilepsy</b>	
<i>K. Vonck, V. De Herdt, M. Sprengers and E. Ben-Menachem (Ghent, Belgium and Göteborg, Sweden)</i>	955
<b>59. Innovative treatments for epilepsy: radiosurgery and local delivery</b>	
<i>P. Boon, R. Raedt, and H. Stefan (Ghent, Belgium and Erlangen, Germany)</i>	971

**60. Social aspects of epilepsy and rehabilitation***R. Thorbecke and M. Pfäfflin (Bielefeld, Germany)***983****61. Economic aspects of epilepsy***C.E. Begley and A.G. Diop (Houston, TX, USA and Dakar, Senegal)***1001**
