

**UNIVERSITY LECTURE SERIES** VOLUME 66

# Lectures on Chevalley Groups

Robert Steinberg

Notes prepared by John Faulkner and Robert Wilson

**American Mathematical Society**  
Providence, Rhode Island

# Contents

Foreword	vii
Acknowledgement	ix
Preface	xi
Chapter 0. Introduction	1
Chapter 1. A basis for $\mathcal{L}$	5
Chapter 2. A basis for $\mathcal{U}$	11
Chapter 3. The Chevalley Groups	19
Chapter 4. Simplicity of $G$	33
Chapter 5. Chevalley Groups and Algebraic Groups	37
Chapter 6. Generators and Relations	43
Chapter 7. Central Extensions	47
Chapter 8. Variants of the Bruhat Lemma	61
Chapter 9. The Orders of the Finite Chevalley Groups	77
Chapter 10. Isomorphisms and Automorphisms	85
Chapter 11. Some Twisted Groups	99
Chapter 12. Representations	117
Chapter 13. Representations Continued	129
Chapter 14. Representations Completed	137
Appendix on Finite Reflection Groups	149
I. Preliminaries	149
II. The Function $N$	151
III. A Fundamental Domain for $W$	152
IV. Generators and relations for $W$	153
V. Appendix	154
Bibliography	155
