Data-Driven Wireless Networks

A Compressive Spectrum Approach

 Springer

Contents

Part I Background

- 1 Introduction 3
 - 1.1 Motivations and Contributions 4
 - 1.1.1 Data-Driven Compressive Spectrum Sensing 5
 - 1.1.2 Robust Compressive Spectrum Sensing 5
 - 1.1.3 Secure Compressive Spectrum Sensing 6
 - References 7
- 2 Sparse Representation in Wireless Networks 9
 - 2.1 Principles of Standard Compressive Sensing 9
 - 2.1.1 Sparse Representation 10
 - 2.1.2 Projection 10
 - 2.1.3 Signal Reconstruction 12
 - 2.2 Reweighted Compressive Sensing 13
 - 2.3 Distributed Compressive Sensing 14
 - 2.4 Compressive Spectrum Sensing 15
 - 2.4.1 Spectrum Sensing Methods 15
 - 2.4.2 Spectrum Sensing Model 16
 - 2.4.3 Compressive Wideband Spectrum Sensing 17
 - 2.5 Summary 19
 - References 19

Part II Compressive Spectrum Sensing Algorithms

- 3 Data-Driven Compressive Spectrum Sensing 23
 - 3.1 Introduction 23
 - 3.1.1 Related Work 24
 - 3.1.2 Contributions 25
 - 3.2 Data-Driven Compressive Spectrum Sensing Framework 25
 - 3.2.1 Iteratively Reweighted Least Square-Based Compressive Sensing 26

3.2.2	Non-iteratively Reweighted Least Square-Based Compressive Sensing	28
3.2.3	Proposed Wilkinson's Method-Based DTT Location Probability Calculation Algorithm	31
3.3	Numerical Analyses	33
3.3.1	Numerical Analyses on Simulated Signals and Data	33
3.3.2	Numerical Analyses on Real-World Signals and Data	38
3.4	Summary	39
	References	40
4	Robust Compressive Spectrum Sensing	43
4.1	Introduction	43
4.1.1	Related Work	43
4.1.2	Contributions	44
4.2	Robust Compressive Spectrum Sensing at Single User	45
4.2.1	System Model	45
4.2.2	Computational Complexity and Spectrum Usage Analyses ...	47
4.3	Numerical Analyses for Single User Case	49
4.3.1	Analyses on Simulated Signals	49
4.3.2	Analyses on Real-World Signals	52
4.4	Matrix Completion-Based Robust Spectrum Sensing at Cooperative Multiple Users	53
4.4.1	System Model	54
4.4.2	Denoised Cooperative Spectrum Sensing Algorithm	57
4.4.3	Computational Complexity and Performance Analyses	58
4.5	Numerical Analyses for Cooperative Multiple Users Case	58
4.5.1	Analyses on Simulated Signals	58
4.5.2	Analyses on Real-World Signals	61
4.6	Summary	62
	References	63
5	Secure Compressive Spectrum Sensing	65
5.1	Introduction	65
5.1.1	Related Work	66
5.1.2	Motivations and Contributions	67
5.2	System Model	68
5.2.1	Networks Description	68
5.2.2	Signal Processing Model	70
5.3	Malicious User Detection Framework	71
5.3.1	Proposed Malicious User Detection Algorithm	72
5.3.2	Rank Order Estimation Algorithm	75
5.3.3	Malicious User Number Estimation	78
5.3.4	Analyses on Minimal Number of Active Secondary Users ...	79
5.4	Numerical Analyses	80
5.4.1	Numerical Results Using Simulated Signals	81
5.4.2	Numerical Results Using Real-World Signals	85

5.5	Summary	86
	References	87
 Part III Conclusions		
6	Conclusions and Future Work.....	91
6.1	Conclusions	91
6.2	Future Work	92
	References	93
