The Road to Universal Logic

Festschrift for 50th Birthday of Jean-Yves Béziau
Volume I

 Birkhäuser

Contents

Ibn Sīnā's Two-Partite Versus Nine-Partite Logicography	1
Musa Akrami	
Homotopical Categories of Logics	13
Peter Arndt	
Semi-implication: A Chapter in Universal Logic	59
Arnon Avron	
A Formal Framework for Hypersequent Calculi and Their Fibring	73
Marcelo Esteban Coniglio and Martín Figallo	
Investigating Knowledge and Opinion	95
John Corcoran and Idris Samawi Hamid	
The Algebra of Opposition (and Universal Logic Interpretations)	127
Răzvan Diaconescu	
Universal Logic as a Science of Patterns	145
Brian R. Gaines	
Hexagonal Logic of the Field \mathbb{F}_8 as a Boolean Logic with Three Involutive Modalities	191
René Guitart	
The Move from One to Two Quantifiers	221
Wilfrid Hodges	
On the Contrary: Disjunctive Syllogism and Pragmatic Strengthening	241
Laurence Horn	
Aristotle on Language and Universal Proof	267
Jean-Louis Hudry	
Béziau on <i>And</i> and <i>Or</i>	283
Lloyd Humberstone	
Universal Logic or Logics in Resemblance Families	309
Dale Jacquette	

Causality and Attribution in an Aristotelian Theory	327
Srećko Kovač	
Using Each Other's Words	341
Marcus Kracht	
On Universality and Formality in 19th Century Symbolic Logic: The Case of Schröder's "Absolute Algebra"	351
Javier Legris	
Caramuel and the "Quantification of the Predicate"	361
Wolfgang Lenzen	
Lossy Inference Rules and Their Bounds: A Brief Review	385
David Makinson and James Hawthorne	
Nonsets	409
Daniel Parrochia	
A Roadmap to Decidability	423
João Rasga, Cristina Sernadas, and Amílcar Sernadas	
John Buridan on Non-contingency Syllogisms	447
Stephen Read	
Symbolic Existence in Hugh MacColl: A Dialogical Approach	457
Juan Redmond	
Béziau's Contributions to the Logical Geometry of Modalities and Quantifiers	475
Hans Smessaert and Lorenz Demey	
On Metalogical Relativism	495
Vladimir L. Vasyukov	
Constructivism and Metamathematics	513
Jan Woleński	

Arnold Koslow · Arthur Buchsbaum

The Road to Universal Logic

Festschrift for the 50th Birthday
of Jean-Yves Beziau
Volume II

 Birkhäuser

Contents

Personal Recollections About JYB by Newton da Costa and Others	1
K. Gan-Krzywoszyńska	
Logical Autobiography 50	19
J.-Y. Béziau	
A Quantitative-Informational Approach to Logical Consequence	105
M. A. Alves and I. M. Loffredo D'Ottaviano	
Finite-Variable Logics Do not Have Weak Beth Definability Property	125
H. Andr��ka and I. N��meti	
Peirce's Role in the History of Logic: <i>Lingua Universalis</i> and <i>Calculus Ratiocinator</i>	135
I. H. Anellis	
The Meaning(s) of "Is": Normative vs. Naturalistic Views of Language	171
I. Angelelli	
The Relation Between Logic, Set Theory and Topos Theory as It Is Used by Alain Badiou	181
R. Angot-Pellissier	
Potentiality and Contradiction in Quantum Mechanics	201
J. R. Becker Arenhart and D. Krause	
Two, Many, and Differently Many	213
D. Batens	
Logics and Their Galaxies	243
H. Bensusan et al.	

Can Identity Be Relativized?	253
O. Bueno	
From (Paraconsistent) Topos Logic to Universal (Topos) Logic	263
L. Estrada-González	
A Note on the Internal Logic of Constructive Mathematics: The Gel'fond–Schneider Theorem in Transcendental Number Theory .	297
Y. Gauthier	
Is Logic Universal or Hierarchical?	307
I. Grattan-Guinness	
The English Tenses, Blanché and the Logical Kite	319
D. Jaspers	
Topological Aspects of Matrix Abduction 1	339
A. Laufer and D. M. Gabbay	
Topological Aspects of Matrix Abduction 2	357
M. Ben Adar Bessos and D. M. Gabbay	
Deciding Theoremhood in Fibred Logics Without Shared Connectives	387
S. Marcelino et al.	
On Rules and Refereeing in Football	407
A. Moktefi and F. Schang	
Arrow-Hexagons	417
A. Moretti	
The Distributed Ontology, Modeling, and Specification Language – DOL	489
T. Mossakowski et al.	
Belnap Constants and Nelson Logic	521
S. Odintsov	
Negative Modalities in the Light of Paraconsistency	539
H. Omori and T. Waragai	
Operativity and Representativity of the Sign in Leibniz	557
O. Pombo	
Being Consistent About Inconsistency: Toward the Rational Fusing of Inconsistent Propositional Logic Bases	565
D. Dubois and H. Prade	

Realist Consequence, Epistemic Inference, Computational Correctness 573
G. Primiero

**Epistemological and Ontological Paraconsistency in Quantum Mechanics:
For and Against Bohrian Philosophy 589**
C. de Ronde
