

Textbook of Global Health

FOURTH EDITION

Anne-Emanuelle Birn, MA, ScD

Professor of Critical Development Studies and Global Health,
University of Toronto, Toronto, Canada

Yogan Pillay, PhD

Deputy Director-General: HIV/AIDS, TB and Maternal,
Child and Women's Health National Department
of Health, Pretoria, South Africa

Timothy H. Holtz, MD, MPH, FACP, FACPM

Adjunct Associate Professor of Global Health, Rollins School of Public Health
Emory University, Atlanta, United States

OXFORD
UNIVERSITY PRESS

CONTENTS

- List of Illustrations: Figures, Tables, and Boxes • xi
- Acknowledgments • xvii
- Introduction: Why Global Health? • xix
- Some Abbreviations and Acronyms • xxxiii

- 1. The Historical Origins of Modern International (and Global) Health • 1
 - Antecedents of Modern International Health: Black Death, Colonial Conquest, and the Atlantic Slave Trade • 2
 - Health, “the Tropics,” and the Imperial System • 8
 - Industrialization, Urbanization, and the Emergence of Modern Public Health • 14
 - The Making of International Health • 20
 - International Health Institution-Building: The LNHO and the Inter-War Years • 30

- 2. Between International and Global Health: Contextualizing the Present • 43
 - The Post-World War II International (Health) Order • 44
 - The Rise of the WHO and “Third World” Development • 50
 - Straddling International and Global Health • 75

- 3. Political Economy of Health and Development • 89
 - Political Economy of Health (and Development) • 89
 - Political Economy of Development (and Health) • 109
 - Recent Development and Global Health Approaches • 122

- 4. Global Health Actors and Activities • 141
 - Snapshot of Global Health Actors, Agencies, and Programs • 143
 - Political Economy of Global Health Actors and Activities • 182

- 5. Data on Health: What Do We Know, What Do We Need to Know, and Why Does it Matter • 193
 - Why Health Data Matter • 193
 - Types of Health Data • 199

6. Epidemiologic Profiles of Global Health and Disease • 231
 - Leading Causes of Morbidity and Mortality Across Societies and the Life Cycle • 231
 - Epidemiology and the Political Economy of Disease • 248
 - Diseases of Marginalization and Deprivation • 249
 - Diseases of Modernization and Work • 257
 - Diseases of Marginalization and Modernization • 259
 - Diseases of Emerging (Global) Social and Economic Patterns • 268
7. Health Equity and the Societal Determinants of Health • 285
 - How is Health Societally Determined and What Explains Health Inequities: Pathways and Possibilities • 286
 - From Political, Economic, Social, and Historical Context to Population Health and Health Inequities • 292
 - Societal Governance and Social Policies • 305
 - From Living Conditions to Embodied Influences • 313
 - Addressing Health Inequities and the Societal Determinants of Health • 321
8. Health Under Crises and the Limits to Humanitarianism • 335
 - Ecological Disasters and their Implications • 337
 - Famine and Food Aid • 341
 - War, Militarism, and Public Health • 343
 - Refugees and Internally Displaced Persons: Numbers, Types, and Places • 351
 - Complex Humanitarian Emergencies • 355
 - Political Economy of Disasters and CHES: Where Does Humanitarianism Fit In? • 363
9. Globalization, Trade, Work, and Health • 377
 - Globalization and Its (Dis)Contents • 377
 - Health Effects of Neoliberal Globalization • 384
 - Work and Occupational Health and Safety Across the World • 403
 - Signs of Hope for the Future: Resistance to Neoliberal Globalization • 411
10. Health and the Environment • 425
 - Framing Environmental Health Problems: The Motors and Drivers • 427
 - Health Problems as Environmental Problems and Vice Versa • 437
 - Climate Change • 446
 - What Is to Be Done?: Multiple Levels of Change • 451
11. Understanding and Organizing Health Care Systems • 477
 - Principles of Health Care Systems • 482
 - Health Care System Archetypes • 484
 - Primary Health Care, Its Renewal, and the Turn to Universal Health Coverage • 496
 - Health Care System Reform • 500
 - Building Blocks of a Health Care System • 508

- 12. Health Economics and the Politics of Health Financing • 529
 - Economic Approaches to Public Health and Medical Spending • 532
 - Health Care Financing Redux • 535
 - Cost Analyses of Health Sector Interventions • 545
 - Market Approaches to Health in LMICs • 550
 - The Role of International Agencies in Health Care Financing • 553
 - Contrasting Approaches to Investing *for* Health (and Health Equity) • 554
- 13. Building Healthy Societies: From Ideas to Action • 565
 - Vertical Health Programs and Global Health Interventions: Successes and Limitations • 567
 - Healthy Societies: Case Studies • 574
 - Healthy Public Policy: Health Promotion, Healthy Cities, and Emerging Frameworks • 586
- 14. Towards a Social Justice Approach to Global Health • 603
 - Recapping the Global Health Arena: Dominant Approaches, Ongoing Challenges, and Points of Inspiration • 604
 - A Social Justice Approach to Practicing Global Health: Individuals, Organizations, and the Logic of the World Order • 620
- Index • 647

LIST OF ILLUSTRATIONS: FIGURES, TABLES, AND BOXES

FIGURES

- 1-1 Isolating yellow fever using the Marchoux chamber, Hospital S. Sebastião, Rio de Janeiro, Brazil (photo originally published in 1909) 23
- 1-2 Caribbean laborers felling trees for swamp drainage and canal construction at New Market Creek Swamp, Panama, circa 1910 24
- 1-3 Administering hookworm treatment at Karapa (India). Rockefeller Foundation International Health Board's Cooperative Hookworm Campaign, 1920s 29
- 3-1 Demographic transition 95
- 3-2 Tuberculosis mortality and medical interventions 97
- 3-3 Political economy of global health framework 103
- 3-4 Trends in life expectancy by region (5-year averages), 1950–2015 105
- 3-5 Trends in life expectancy in selected sub-Saharan African countries (5-year averages), 1950–2015 105
- 3-6 Life expectancy in EU member states and the Commonwealth of Independent States, 1970–2012 106
- 3-7 Long-term LMIC trends of ODA, remittances, debt service, and total stock of external debt (constant 2013 US\$ billions), 1970–2014 121
- 3-8 Percentage of population in LMICs living in poverty (2005 PPP\$), 1990–2011 126
- 4-1 Total ODA and ODA as a percentage of GNI by country, 2014 156
- 4-2 Development assistance for health by source, 1990–2015 182
- 5-1 Additional information to be included in routine data collection to enable measurement of health inequities and societal determinants of health 198
- 5-2 Age pyramids for populations of three countries, 2015 202
- 5-3 Population size estimates with and without the effect of AIDS, Southern Africa, 2015 203
- 5-4 International form of medical certificate of cause of death 211
- 5-5 Infant mortality in India by state and union territory (highest and lowest IMR states), 2001 and 2011 213
- 5-6 Coverage of vital registration of deaths (%), World, 2004–2012 215
- 5-7 Distribution of disease burden (in DALYs) by age group and income group, 2012 223
- 6-1 Leading causes of death in the world, 2013 233

- 6-2 Leading causes of death in Italy, 2012 234
- 6-3 Leading causes of death in Indonesia, 2013 234
- 6-4 Leading causes of death in Kenya according to IHME and the Kenya National Bureau of Statistics, 2013 235
- 6-5 Age-standardized mortality rate among selected countries, 2012 235
- 6-6 Trends in under-5 child mortality, 1970–2015 237
- 6-7 Global distribution of deaths among children under 5 by cause, 2015 238
- 6-8 Maternal mortality ratios and percentage of births attended by skilled health personnel, 2015 243
- 6-9 Deaths by typology as a proportion of all deaths in LMICs and HICs, 2013 249
- 6-10 Cholera cases reported to WHO by year and by continent (1989–2013) 252
- 6-11 Estimated TB incidence rate, by country, 2014 262
- 6-12 Annual estimates on the number of AIDS-related deaths, new HIV infections, and people living with HIV globally (2000–2015) 264
- 6-13 Percentage of adults and children receiving antiretroviral therapy among all people living with HIV, by region (2010–2015) 267
- 7-1 Infant mortality rate by wealth quintile, selected countries 295
- 7-2 Life expectancy at birth by socioeconomic/occupational classification for men in England and Wales since the Black Report 298
- 7-3 Age-adjusted cancer mortality rate among men over age 20 in Chile, by education level 310
- 7-4 Age-adjusted cancer mortality rate among women over age 20 in Chile, by education level 311
- 7-5 Piped water on premises and infant mortality rates, 2015 316
- 7-6 Percentage of population with access to “improved sanitation,” 1990–2015 317
- 8-1 World military expenditures, 2005–2015 (constant 2014 US\$ billion) 344
- 8-2 Trend of global displacement and proportion of world population displaced, 1996–2015 351
- 8-3 Map of complex humanitarian emergencies causing internal displacement, 2015 352
- 9-1 Child laborers at Indiana Glass Works, at midnight, 1908 379
- 9-2 Child spinning wool, India 380
- 9-3 Pathways of neoliberal globalization and effects on health 385
- 10-1 Political ecology of health: Determinants, effects, and responses 430
- 10-2 Ambient air pollution attributable deaths per 100,000 people, 2012 438
- 10-3 Passenger vehicles per 1,000 people by region, 1970–2013 439
- 10-4 Passenger vehicles per 1,000 people in selected countries, 2011 440
- 10-5 Garbage “pickers,” Nepal 444
- 10-6 Per capita CO₂ emissions, selected countries and regions, 2012 448
- 10-7 Ecological footprints: A global snapshot, 2012 453
- 12-1 Health care expenditures as percent of GDP in the US and Canada, 1975–2014 542
- 12-2 Administrative costs as a percent of total hospital costs in selected countries 545
- 12-3 The Preston Curve applied to health spending: Annual health care expenditures per capita and life expectancy at birth, 2014 (180 countries) 558
- 14-1 People’s Health Assembly, Cape Town, South Africa, July 2012 635

TABLES

- 2-1 Major WHO Activities 54
- 2-2 Costs of the Smallpox Eradication Programme 69
- 2-3 Continuities and Differences between International and Global Health Conceptualizations and Rationales 77
- 3-1 Critical Political Economy Questions from the Writings of Vicente Navarro 104

- 3-2 Causes of and Therapeutics for Diarrhea According to Contrasting Approaches to Health 108
- 3-3 Selected IFI Development Strategies 115
- 4-1 Typology of Global/International Health Actors and Programs 143
- 4-2 Selected UN Organizations 145
- 4-3 Selected UN Autonomous Specialized Agencies 146
- 4-4 Major United Nations Meetings (with Health-Related Dimensions) since 2010 146
- 4-5 WHO Regional Offices 147
- 4-6 Voting Power as a Function of Shareholding 150
- 4-7 Selected Bilateral Agency Budgets and Priorities 155
- 4-8 Endowments and Current Priorities of Selected Foundations 164
- 4-9 Selected Religious Agencies—Spending and Activities 174
- 4-10 Largest Current Global Health Actors 184
 - 5-1 Some Uses and Limitations of Population Health Data 194
 - 5-2 Commonly Used Health Indicators 195
 - 5-3 Some Topics Recommended by the UN World Population and Housing Census Programme and Various National Census Agencies for Inclusion in a National Population Census 204
 - 5-4 Some Personal/Social and Administrative Uses of Vital Records 206
 - 5-5 Major Subdivisions of the International Classification of Diseases, Tenth Revision, 1994 210
 - 5-6 Countries with Highest and Lowest Infant Mortality Rates (IMR) and Corresponding Neonatal Mortality Rates (NMR), 2015 212
 - 5-7 Infant Mortality Rate by Region, Brazil, 2010 213
 - 5-8 The 12 Leading Causes of Death in the World, 2013 (and Rank Order in 2000) 220
 - 5-9 The 10 Leading Causes of Death by Country Income Level, 2012 221
 - 5-10 Leading Causes of Disease Burden (in DALYs) for Males and Females, Worldwide, 2012 222
- 6-1 Public Health Epidemiologic Terms 232
- 6-2 Selected Indigenous Populations and Related Health Indicators 246
- 6-3 Some Enteric Agents that Can Cause Acute or Chronic Diarrhea 250
- 6-4 Selected “Neglected Tropical Diseases” 253
- 6-5 Some (Re-) Emerging Infections and Probable Factors in their Emergence and Spread 270
- 6-6 Some Factors in the (Re-)Emergence and Spread of Infectious Diseases 271
- 7-1 Theories Explaining Health and Disease Patterns (and their Contribution to Understanding Societal Determinants and Health Inequities) 290
- 8-1 Main Origins of the World’s Refugees, 2015 353
- 8-2 Total Population of Concern to UNHCR by Region of Asylum, 2015 354
- 8-3 Comparison of Mortality Before and During War: Violence in the DRC and Iraq 361
- 9-1 Key Definitions Relating to Globalization, Trade, and Work 382
- 9-2 Selected WTO Trade Agreements and their Influence on Health 393
- 9-3 Recent Examples of Human Rights Violations Linked to Transnational Corporate Activity 399
- 9-4 Estimated Number of Children Exploited through Prostitution 408
- 9-5 Key Labor Policies and OSH Measures to Improve Working Conditions and Protect Workers’ Health 409
- 10-1 Selected Pollution Hotspots 433
- 10-2 Agents of Environmental Health Problems and their Consequences: Air 441
- 10-3 Agents of Environmental Health Problems and their Consequences: Water 442
- 10-4 Agents of Environmental Health Problems and their Consequences: Places 445
- 10-5 World CO₂ Emissions (Billion Metric Tons) by Region, 1990–2012 447
- 10-6 Hierarchy of IPCC Projections of Changes in Climate-Related Phenomena for 2050–2100 and their Health Consequences 449
- 10-7 Actions to Confront Environment and Health Threats 454

- 11-1 Public vs. Private Financing and Delivery of Health Care Services 480
- 11-2 Evolution of Health Systems 481
- 12-1 Spending on Health: Examples of the Extent of Inequities (in US\$), 2014 530
- 12-2 How the Health Care Sector Differs from Markets 533
- 12-3 Comparison of Health Indicators: Cuba, the United States, and Iceland, 2014 537
- 12-4 Private (Including Out-of-Pocket) Expenditures as % of Total Health Care Spending in Selected Countries, 2014 537
- 12-5 Organization and Effects of Single-Payer versus Multiple-Payer Health Care Systems 543
- 12-6 Provider Remuneration Mechanisms 544
- 12-7 Using Cost-Effectiveness Analysis to Determine Health Priorities 549
- 12-8 GDP, Debt, Health Expenditures, and Donor Funding in Selected Countries (2014) 553
- 12-9 Neoliberal and Social Justice Approaches to Health Compared 556
- 13-1 Health and Social Indicators for Selected Welfare States, 2015 576
- 13-2 Data on Selected Determinants of Health and Mortality Rates for Three LMICs and the United States 577
- 13-3 Selected Population Indicators, Kerala and India 582
- 14-1 Summary of State Obligations with Respect to the Right to Health 616

BOXES

- 1-1 Smallpox Vaccination During Late Spanish Colonialism 6
- 1-2 Rationales for Colonial Health and Tropical Medicine 9
- 1-3 Imperialism, Health, and the Rubber Industry 13
- 1-4 Rockefeller Foundation Principles of International Health Cooperation 30
- 1-5 Early International Health Organizations, Location, and Year of Founding/Establishment 31
- 2-1 Preamble to the WHO Constitution (1946) 52
- 2-2 Eras of International Health Activity 53
- 2-3 Development as Modernization versus Development as Dependency 61
- 2-4 Bilateral Assistance and the Making of Population Control as an International Health Concern 64
- 2-5 Critiques of Disease Eradication Programs 70
- 3-1 Key Political Economy Definitions 93
- 3-2 What's in a Name?: Categorizing Countries by "Development" Level 110
- 3-3 The Human Development Index 124
- 3-4 Health-Related Millennium Development Goals and Selected Targets 125
- 4-1 Definitions 142
- 5-1 Age Adjustment 201
- 5-2 Million Death Study in India 216
- 6-1 Approaches to Prevention and Control of NCDs 236
- 6-2 Cholera 250
- 6-3 Food-Related Morbidity and Mortality 251
- 6-4 Measles 257
- 6-5 Social Impact of HIV and AIDS in sub-Saharan Africa 265
- 6-6 Case Study: Brazil's National AIDS Program 266
- 7-1 SDOH and Health Equity Definitions 286
- 7-2 Main Pathways Linking Racism to Health Effects 303
- 8-1 Definitions and Classifications 336
- 8-2 Drug Wars 345
- 8-3 The Movement Against Landmines 346

- 8-4 Chemical Weapons and Environmental Health 348
- 9-1 Is Sugar the New Tobacco? 397
- 9-2 The Union Carbide Disaster in Bhopal: A Case Study of TNC Impunity 398
- 9-3 Transnationals, the WTO, and Infant Formula: A Case Study of Unethical Practices 401
- 9-4 Trade Liberalization and the Export of Hazard 402
- 9-5 Farming and Mining as Hazardous Occupations 405
- 10-1 Definitions 426
- 10-2 Lead Contamination 431
- 10-3 Disastrous Consequences of Energy Extraction and Production 434
- 10-4 Endocrine Disrupting Chemicals 435
- 10-5 Child Health and the Environment 437
- 10-6 Asthma and Air Pollution 441
- 10-7 Environmental Protection and Decisionmaking: EIA and the Precautionary Principle 450
- 10-8 Ecological Footprint 453
- 10-9 Some Key International Environmental Conferences and Agreements and their Health Dimensions 456
- 10-10 Cooperating to Phase Out Chlorofluorocarbons: The Montreal Protocol 458
 - 11-1 Basic Features of Germany's Social Insurance System 485
 - 11-2 Basic Features of the NHS 487
 - 11-3 Basic Features of the (Former) Soviet Model 489
 - 11-4 Basic Features of Health Care under China's "Market Socialism" 492
 - 11-5 Basic Features of Health Care Financing and Delivery in the United States 494
 - 11-6 Selections from the *Declaration of Alma-Ata* 497
 - 11-7 Characteristics of Health Sector Reform 501
 - 11-8 Political Economy of Ebola and Health Care System Crises in West Africa 507
 - 11-9 Long-Term Care Facilities and Hospices 510
 - 11-10 Decentralization and District Health Systems 518
 - 12-1 Two Sides of Turkey's Experiences with Changes in Health Care Financing 539
 - 12-2 Medical Tourism 541
 - 12-3 Corruption in the Health Sector 555
 - 13-1 Factors Contributing to the Success of Cuba's Social Services 581
 - 13-2 ALAMES's Guiding Principles and Key Aspects of its Political Agenda 584
 - 13-3 Wherefore International Efforts? *Promise and Limitations of the Framework Convention on Tobacco Control* 588
 - 13-4 Promoting Health for All and Social Justice in the Era of Global Capitalism: A Call to Action by the People's Health Movement at the 8th Global Conference on Health Promotion (2013) 589
 - 14-1 Global Health Research and its Ethical Dimensions 608
 - 14-2 Health and Human Rights 615
 - 14-3 Social Justice-Oriented South-South Health Diplomacy and Cooperation 618
 - 14-4 Health Solidarity in El Salvador 623
 - 14-5 Inspiring Individuals: Dr. Denis Mukwege 624
 - 14-6 Alternative Media/Activist Outlets 628
 - 14-7 Challenging Gender Norms to Address Gender-Based Violence and HIV Prevention 631
 - 14-8 Health Alliance International: *Cooperantes* Working in Solidarity to Create Healthy Societies 632
 - 14-9 Key Questions Individuals and Organizations Should Consider in Carrying Out Global Health Projects 634
 - 14-10 Indigenous Movements Influencing the Societal Determinants of Health 637
