

FINTECH

Law and Regulation

Edited by

JELENA MADIR

Chief Counsel, European Bank for Reconstruction and Development

ELGAR FINANCIAL LAW AND PRACTICE

Edward Elgar
PUBLISHING

Cheltenham, UK • Northampton, MA, USA

EXTENDED CONTENTS

<i>List of figures</i>	xiv
<i>List of tables</i>	xv
<i>List of editor and contributors</i>	xvi
<i>Preface</i>	xxii
<i>Glossary of key terms</i>	xxiv
<i>Table of cases</i>	xxxiii
<i>Table of legislation</i>	xxxv

1. Introduction – what is FinTech?

Jelena Madir

A. INTRODUCTION	1.01
B. WHAT IS (AND ISN'T) NEW ABOUT FINTECH?	1.03
C. KEY PLAYERS, PRODUCTS AND TRENDS	1.08
1. Mobile payments and e-wallets	1.11
2. Open banking/APIs	1.13
3. Artificial intelligence (AI) and big data	1.19
4. Machine learning	1.21
5. Biometrics	1.22
6. Robo-advice	1.23
7. Blockchain	1.24
D. HOW SHOULD REGULATORS RESPOND AND WHY SHOULD LAWYERS CARE ABOUT FINTECH?	1.34
1. Distributed ledgers and data privacy	1.36
2. Rules governing ownership and contractual rights and obligations	1.37
3. Regulatory sandboxes	1.39
4. RegTech	1.42
E. CONCLUSION	1.49

PART I PAYMENTS, ALTERNATIVE FINANCING AND CRYPTOASSETS

2. Adapting to a changing payments landscape

Ben Regnard-Weinrabe and Jane Finlayson-Brown

A. INTRODUCTION	2.01
B. ONLINE AND MOBILE BANKING	2.03
C. GROWTH IN CONTACTLESS PAYMENTS	2.11
D. PSD2 AND REGULATORY TECHNICAL STANDARDS ON STRONG CUSTOMER AUTHENTICATION AND SECURE COMMUNICATION	2.19
1. Second EU Payment Services Directive (PSD2)	2.19
2. Strong customer authentication	2.33
E. OPEN BANKING	2.48
1. Overview	2.48
2. What is the aim of Open Banking?	2.53
3. What sparked this initiative?	2.54
4. Implementation of Open Banking	2.56
5. What are the potential advantages and disadvantages of Open Banking?	2.60
6. The global perspective	2.64
F. PAYMENTS AND DATA PROTECTION	2.69

1. Overview	2.69
2. Consent, transparency and the legal basis for processing data	2.70
3. Purpose limitation: regulating the use of data	2.79
4. Security and accountability	2.83
G. CONCLUSION	2.92
 3. Crowdfunding	
<i>Peter Chapman</i>	
A. INTRODUCTION	3.01
B. FORMS OF CROWDFUNDING	3.05
1. Donation-based crowdfunding	3.06
2. Reward-based crowdfunding	3.08
3. Investment-based crowdfunding	3.11
4. Lending-based crowdfunding	3.14
5. Initial coin offerings and securities token offerings	3.15
C. RATIONALE FOR CROWDFUNDING REGULATION	3.17
1. Should crowdfunding be regulated at all?	3.17
2. Is there a need for specific crowdfunding regulation?	3.21
3. The case for differing approaches to the different forms of crowdfunding	3.23
4. Regulation to achieve more efficient capital markets	3.25
D. REGULATORY FRAMEWORK	3.28
1. Platform requirements	3.28
2. Investor protection and business conduct	3.52
3. Market integrity and financial crime	3.89
4. Market liquidity	3.93
E. CONCLUSION	3.98
 4. Cryptoassets and initial coin offerings	
<i>Claude Brown, Tim Dolan and Karen Butler</i>	
A. INTRODUCTION	4.01
B. WHAT ARE CRYPTOASSETS AND INITIAL COIN OFFERINGS?	4.06
C. UK AND EUROPE	4.17
1. Overview	4.17
2. Categorisation of cryptoassets	4.22
3. E-money and cryptoassets	4.24
4. Payment services and cryptoassets	4.30
5. Collective investment schemes and cryptoassets	4.36
6. Alternative investment funds and cryptoassets	4.47
7. Carrying on of a regulated activity	4.53
8. Registry, settlement and clearing	4.62
9. Future UK regulatory developments	4.65
D. UNITED STATES	4.73
1. Overview	4.73
2. New York: the BitLicense regime	4.74
3. Other state cryptocurrency statutes	4.82
4. Commodity Futures and Trading Commission	4.83
5. Financial Crimes Enforcement Network	4.86
6. Securities and Exchange Commission	4.88
7. Other federal agencies	4.91
E. ASIA	4.94
1. Overview	4.94
2. China	4.95
3. Thailand	4.97
4. Japan	4.99
5. Singapore	4.104
F. CONCLUSION	4.108

5. Cryptocurrencies and central banks	
<i>Hubert de Vauplane</i>	
A. INTRODUCTION	5.01
B. CHARACTERISTICS OF CURRENCY	5.04
C. LEGAL ASPECTS OF MONEY	5.09
1. The role of the State	5.10
2. Legal tender and the discharging power of money	5.18
3. Convertibility and fiat currency	5.24
4. Fungibility	5.26
5. <i>Bona fide</i> holder	5.32
D. LEGAL DIFFERENCES BETWEEN LEGAL CURRENCIES AND CRYPTOCURRENCIES	5.36
1. What cryptocurrencies are and are not	5.37
2. Personal right or intangible property?	5.46
E. LEGAL ISSUES RELATED TO CRYPTOCURRENCIES	5.52
1. Characteristics of Central Bank Digital Currency	5.53
2. Specificities of CBDCs in comparison to paper money	5.57
3. Pseudonymity and traceability	5.59
4. Infringement and counterfeiting	5.62
5. Exchange control	5.64
F. CONCLUSION	5.66

PART II BLOCKCHAIN AND DISTRIBUTED LEDGERS

6. Blockchain in financial services	
<i>Colleen Baker and Kevin Werbach</i>	
A. INTRODUCTION	6.01
B. TECHNOLOGY OVERVIEW	6.04
1. Definitions	6.04
2. Key aspects of blockchain-based systems	6.10
3. Potential benefits	6.16
C. BLOCKCHAIN APPLICATIONS IN FINANCIAL SERVICES	6.23
1. Customer data and identity management	6.24
2. The trade life cycle	6.28
3. Payments	6.38
4. Financing	6.40
5. Asset management	6.46
6. New currencies	6.48
7. Cryptoassets	6.51
8. Tokenisation	6.53
9. Insurance	6.56
10. Corporate governance	6.59
D. REGULATORY AND COMPLIANCE CONSIDERATIONS	6.61
E. CONCLUSION	6.68
7. Smart contracts	
<i>Jelena Madir</i>	
A. INTRODUCTION	7.01
B. WHAT ARE SMART CONTRACTS?	7.03
C. AUTOMATABILITY OF CONTRACTUAL CLAUSES	7.15
D. DIFFERENT TYPES OF SMART CONTRACTS	7.20
E. EXISTENCE OF A VALID AND BINDING CONTRACT	7.22
1. Offer and acceptance	7.24
2. Consideration	7.30
3. Intention to create legal relations	7.31
4. Certainty of terms/essential terms	7.35
F. CAPACITY AND AUTHORITY	7.39
G. FORM OF AGREEMENT	7.41
H. LIABILITY	7.47
I. BURDEN OF PROOF	7.50

J. GOVERNING LAW AND DISPUTE RESOLUTION MECHANISMS	7.52
K. PRIVACY ISSUES	7.57
L. CONTRACTUAL AMENDMENTS	7.60
M. CONCLUSION	7.63
8. Governing the blockchain: what is the applicable law? <i>Harriet Territt</i>	
A. INTRODUCTION	8.01
B. ARE NATIONAL LAWS RELEVANT TO DLT SYSTEMS?	8.03
C. WHY GOVERNING LAW AND JURISDICTION MATTER	8.08
1. Governing law	8.08
2. Jurisdiction	8.19
D. DIFFERENT ASPECTS OF BLOCKCHAIN GOVERNANCE	8.24
1. Agreements concluded via DLT systems	8.25
2. Assets created or stored on DLT systems	8.26
3. Operation and management of DLT systems	8.27
E. FACTORS THAT MAY AFFECT THE APPLICABLE LAW	8.36
F. CONCLUSION	8.43
9. Liabilities associated with distributed ledgers: a comparative analysis <i>Dirk Zetzsche, Ross Buckley, Douglas Arner and Anton Didenko</i>	
A. INTRODUCTION	9.01
B. THE DISTRIBUTED LEDGER CONCEPT	9.06
C. THE RISKS OF DISTRIBUTED LEDGERS	9.13
1. Ledger transparency risks	9.15
2. Cyber risks	9.19
3. Operational risks	9.25
D. LEGAL CONSEQUENCES	9.28
E. CONSEQUENCES OF JOINT CONTROL FOR LIABILITY	9.35
1. System participants as related entities	9.39
2. Liabilities arising from 'shared control'	9.42
F. COMPARATIVE ANALYSIS OF POTENTIAL LIABILITIES	9.47
1. Contractual liability	9.49
2. Tortious liability	9.58
3. General partnership or joint venture	9.63
4. Specific legislation	9.67
5. Fiduciary liability of core developers	9.70
6. 'Liability cocoon' of software developers	9.74
G. CONCLUSION	9.77
10. Cybersecurity and blockchain <i>Patricia L. de Miranda</i>	
A. INTRODUCTION	10.01
B. WHAT IS CYBERSECURITY?	10.04
C. CYBER-ATTACK CASE STUDIES	10.06
1. The Ukraine cases: 2015 and 2017	10.11
2. The Maersk case: June 2017	10.19
3. WannaCry: May 2017	10.21
D. LESSONS LEARNED	10.23
E. BLOCKCHAIN AS A CYBERSECURITY TOOL OR BLOCKCHAIN AS A RISK?	10.35
F. CONCLUSION	10.54
11. Blockchain and privacy <i>Daniel Cooper and Gemma Nash</i>	
A. INTRODUCTION	11.01
B. EU DATA PRIVACY LAW	11.07
1. The EU GDPR and its origins	11.07
2. Scope and core concepts	11.11
3. Key principles and rules	11.15

C. DATA PRIVACY AND BLOCKCHAIN	11.17
1. Introduction	11.17
2. Blockchain and personal data	11.20
3. The immutable nature of blockchain	11.25
4. Decentralised networks and issues of responsibility	11.35
5. Other privacy challenges with blockchain	11.42
D. CONCLUSION	11.45

PART III REGULATION AND COMPLIANCE

12. RegTech and SupTech: the future of compliance	
<i>John Ho Hee Jung</i>	
A. INTRODUCTION	12.01
B. DEVELOPMENT OF REGTECH	12.06
C. KEY PLAYERS, DRIVERS AND APPLICATIONS IN REGTECH	12.16
1. Players and drivers	12.16
2. RegTech applications	12.23
D. RISKS AND CHALLENGES OF REGTECH ADOPTION	12.27
1. Onerous procurement process	12.28
2. Preference for large and established providers	12.29
3. Fragmented market	12.30
4. Regulatory uncertainty	12.31
5. Concentration risk	12.32
6. Data protection security and cyber threats	12.34
E. BENEFITS, CHALLENGES AND GROWTH OF SUPTECH	12.37
F. FUTURE TRENDS IN REGTECH AND SUPTECH	12.42
1. Quantitative regulation	12.44
2. Machine-readable regulations	12.46
3. Agile regulation	12.47
4. Regulatory sandboxes	12.48
5. International cooperation	12.49
G. FUTURE OF COMPLIANCE	12.51
H. CONCLUSION	12.55
13. The rise of TechFins: regulatory challenges	
<i>Dirk Zetsche, Ross Buckley and Douglas Arner</i>	
A. INTRODUCTION	13.01
B. FINTECHS AND TECHFINS, DIGITISATION AND DATAFICATION	13.03
1. Features of FinTech and RegTech	13.03
2. Features of TechFin	13.04
3. TechFin stages	13.10
4. Over time the distinctions will disappear	13.15
C. NEW OPPORTUNITIES PROVIDED BY TECHFINS	13.16
1. Reducing transaction costs	13.16
2. Improved business decisions and risk management	13.17
3. Financial inclusion	13.19
D. FINANCIAL LAW AND REGULATION CHALLENGES	13.24
1. Systemic issues and false predictions	13.24
2. Protected factors	13.26
3. Real power, unreal responsibility	13.29
4. Fiduciary status	13.35
5. Legal obligations	13.37
6. Fair competition	13.40
7. Differences from FinTech	13.42
E. POLICY CONSIDERATIONS	13.45
1. Costs of doing nothing	13.46
2. Costs of catch-all mandatory licensing	13.49
3. Other regulatory options	13.50
4. Data	13.53

5. Balanced risk analysis	13.55
6. Licensing requirements for data gathering and analytics	13.57
F. CONCLUSION	13.63
14. Regulatory sandboxes	
<i>Byungkwon Lim and Charles Low</i>	
A. INTRODUCTION	14.01
B. THE REGULATORY SANDBOX IN GENERAL	14.04
1. Covered FinTech products and eligible participants	14.06
2. Parameters	14.07
3. Regulatory safe harbour	14.09
4. Post-sandbox engagement	14.11
C. BENEFITS OF THE REGULATORY SANDBOX	14.14
1. Participant-regulator dialogue	14.14
2. Reduced time and cost of market penetration	14.15
3. Stronger appeal to stakeholders	14.18
4. Market signalling	14.20
D. SHORTCOMINGS OF REGULATORY SANDBOXES	14.21
1. Multi-tiered regimes	14.21
2. Pre-judging innovative value	14.26
3. Scalability	14.29
4. Race to the bottom	14.32
E. THE FCA SANDBOX	14.34
1. Admission into the FCA Sandbox	14.39
2. Reception of the FCA Sandbox	14.43
F. REGULATORY SANDBOXES IN THE US	14.44
1. Federal-level experiment	14.44
2. State-level experiment	14.47
3. Regulatory sandbox implementation issues in the US	14.50
G. A GLOBAL REGULATORY SANDBOX	14.56
H. CONCLUSION	14.61
15. Compliance and whistleblowing: how technology will replace, empower and change whistleblowers	
<i>Kieran Pender, Sofya Cherkasova and Anna Yamaoka-Enkerlin</i>	
A. INTRODUCTION	15.01
B. TECHNOLOGY REPLACING THE WHISTLEBLOWER	15.06
1. The 'openness revolution'	15.07
2. Challenges	15.12
3. Opportunity	15.14
4. Obstacles	15.23
C. TECHNOLOGY EMPOWERING THE WHISTLEBLOWER	15.28
1. Hotline services	15.29
2. Web portals	15.30
3. Mobile apps	15.36
4. Blockchain	15.38
D. TECHNOLOGY CHANGING THE WHISTLEBLOWER	15.48
1. Political implications	15.53
2. Ethical implications	15.54
3. Legal implications	15.57
E. CONCLUSION	15.66
16. Regulation of robo-advisory services	
<i>Lee Reiners</i>	
A. INTRODUCTION	16.01
B. WHAT ARE ROBO-ADVISORS?	16.03
C. INDUSTRY OVERVIEW	16.06
D. BENEFITS OF ROBO-ADVISORS	16.09
E. RISKS OF ROBO-ADVISORS	16.12

F. REGULATION OF ROBO-ADVISORS IN THE US	16.17
1. Fiduciary duty for investment advisers	16.18
2. SEC guidance	16.26
3. Conflicts of interest	16.28
4. Examination	16.33
5. Responsibilities of robo-advisors registered as broker-dealers	16.34
6. Recommendations to change the regulatory framework	16.40
G. REGULATION OF ROBO-ADVISORS IN EUROPE	16.41
1. MiFID	16.42
2. National competent authorities	16.47
H. CONCLUSION	16.51
 17. Patentability of FinTech inventions	
<i>Mirjana Stankovic</i>	
A. INTRODUCTION	17.01
B. OVERVIEW OF THE FINTECH PATENT LANDSCAPE	17.05
C. PATENT ELIGIBILITY OF FINTECH INVENTIONS	17.08
1. Types of FinTech inventions	17.10
2. Patent eligibility legislation and jurisprudence in the US	17.11
3. Patent eligibility rules: the European Patent Office perspective	17.18
4. Patent eligibility rules and the FinTech Fast Track initiative of the Intellectual Property Office of Singapore	17.25
D. PATENTING OF A FINTECH TECHNOLOGY: THE CASE OF BLOCKCHAIN	17.32
E. CONCLUSION	17.43
 PART IV TECHNOLOGICAL INNOVATIONS IN LEGAL SERVICES	
 18. The innovation process in law firms	
<i>Sophia Adams-Bhatti and Tara Chittenden</i>	
A. INTRODUCTION	18.01
B. INNOVATE OR DIE?	18.08
C. DRIVERS FOR TECHNOLOGICAL INNOVATION IN LAW FIRMS	18.13
D. BARRIERS TO TECHNOLOGICAL INNOVATION IN LAW FIRMS	18.26
E. THE INNOVATION PROCESS IN ACTION	18.35
1. Initiating innovation: ideas and insight	18.38
2. Seeking senior buy-in	18.43
3. Budget for innovation and expectations of a return on investment	18.45
4. Law firm incubators and dedicated space for innovation	18.51
F. COMPARISONS BETWEEN LEGALTECH AND FINTECH	18.53
G. TO INNOVATION AND BEYOND	18.57
H. CONCLUSION	18.62
 19. Future lawyers: how to stay up to date with the legal tech revolution	
<i>Mark Fenwick, Wulf A. Kaal and Erik P.M. Vermeulen</i>	
A. INTRODUCTION	19.01
B. EDUCATION IN A DIGITAL AGE	19.09
C. THE LAWYER OF THE FUTURE AS 'TRANSACTION ENGINEER'	19.16
D. LEGALTECH	19.28
E. BLOCKCHAIN SMART CONTRACTS	19.36
F. 'CODING FOR LAWYERS'	19.47
G. THE CYCLE OF SELF-LEARNING	19.54
H. CONCLUSION	19.58
 <i>Index</i>	 441

FIGURES

1.1	FinTech players	5
1.2	Trade-offs in blockchain design	13
7.1	Smart loan contracts	153
7.2	Smart contract models based on the level of integration of the computer code	155
9.1	Ledger hierarchy	193
12.1	SupTech applications	271
18.1	Ingredients for innovation in law firms	407

TABLES

1.1	Real-life examples and technology disruptions related to finance	5
2.1	Elements of strong customer authentication	35
12.1	Ecosystem of RegTech companies	261
12.2	Areas of RegTech application	264
17.1	Types of FinTech inventions classified by the type of financial service to which the potential FinTech invention relates	380
